What will be the evidence the action step occurred, the data indicating progress, or the indicator of success?</i>	<b>Results:</b> <i>Share results, observations, comments, etc.</i>

Rigor Goal: All students will achieve high levels of academic rigor. Key Discussion Questions: - In what ways do our instructional strategies create rigor in the classroom? - How well does do our metrics measure student performance? - Is student growth and success determined through multiple measures of learning? - What steps might we take to increase the rigor of our classrooms?	. We succeeded in meeting our goal of increasing the number of students in the average range, with 62% at 25th%ile or higher on Aimsweb, and 73% of students taking Performance Reading scoring 25th%ile or higher. We feel that the reason we are having success is because of our technology, adherence to strategies above, and our focus on relevant, integrated learning. Our multiple measure are indicating that fluency is aligned with comprehension overall. We feel we need to continue as we are doing now, to keep things consistent and continue to have success.	<h2>Advancing</h2>

<b>Action Steps:</b> <i>What will be done?</i>	<b>Owner:</b> <i>Who will do it?</i>	<b>Timeline:</b> <i>When will this be accomplished?</i>	<b>Evidence of the Action:</b> <i>What does success look like?</i>	<b>Results:</b> <i>Share attempts and wins</i>
