

Kevin Lyon
Golden Apple Award Recipient
July 17, 2006

Mr. Kevin Lyon served as the Kenai Peninsula Borough Project Manager for the Seward Middle School building project. His ability to keep the educational interests of students uppermost and the well-organized manner in which all phases proceeded made his role in bringing about this new school for the Kenai Peninsula Borough School District not just commendable, but invaluable.

Kevin's boundless energy, high standards and unflagging work ethic are apparent when visiting the Seward Middle School facility. From the first stages of putting together the educational specifications with the Building Advisory Committee, to the final inspection of the building prior to student occupancy, Kevin's focus and determination kept this complex and often difficult project on time and within budget.

In addition to the myriad of duties involved with the construction of a new school, Kevin also worked with students and faculty orienting them to their new school, problem-solved with various user groups, and kept the community and press updated with all developments as they occurred.

It is with sincere gratitude for this tireless work for the students of our district that the Kenai Peninsula Borough School District Board of Education recognizes Mr. Kevin Lyon as a Golden Apple recipient.
