# Welcome

Welcome to the Student Information System (SIS) integration between PowerSchool and the Pearson Digital Curriculum Platforms.

Digital Curriculum Platforms are where your classes and course materials reside online.

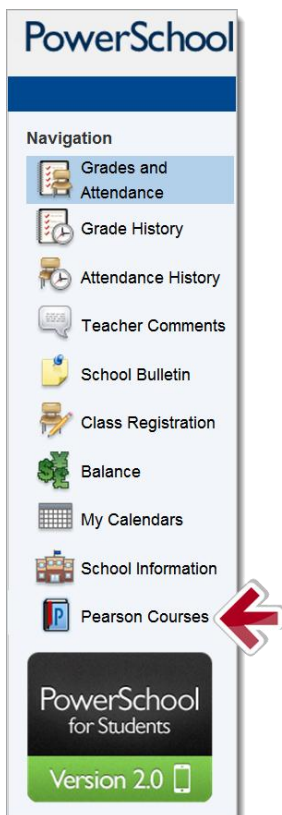

When your school completes the SIS integration, you will receive Single Sign-On (SSO) privileges. That means you need to remember only one user name and one password.

You will be able to move from PowerSchool to your online content and back again, using only your PowerSchool sign-on.

If your teacher assigns you graded assignments or tests on a Digital Curriculum Platforms, you and your parents or guardians need to view those grades and test scores directly on the Digital Curriculum Platforms. The grades do not yet appear in the PowerSchool gradebook.
