NUTRITION TO GO

As a rule, Americans don't eat enough beans! Beans are the best plant source of protein and contain little of the fat and cholesterol that accompany the protein in meat. Beans also provide more fiber than almost any other plant food and nearly as much calcium as milk. Plus, beans' slow release of glucose makes them a superfood for people with diabetes. Wow!

Only an Illusion

Remember a few weeks ago when the argument between people who saw the black and blue dress and those who saw the gold and white dress almost shut down the internet?

Here's another one for you: the "Adelson Checkerboard Illusion." Do you think the two squares labeled

A and B are different shades of gray? Guess what?

They're the same color! If you're interested, you can see proof and learn more by searching on line for "Checkershadow Illusion - MIT".

Edward H. Adelson

What's on YOUR plate?

WHAT AM I? I have a head but cannot think.
I have eyes but cannot see.
I have ears but cannot hear.
I have ribs but no bones.

Answer: I'm a VEGETABLE GARDEN, planted with lettuce (heads), potatoes (eyes), corn (ears), and celery (ribs). YUMMY!
