Scientific calculators are allowed. Graphing calculators are NOT allowed.

No reference materials (cell phones, notes, book, notecards, or formulas) are allowed during the test.

You must show all your work to receive full credit. Write your answer on the given line.

# Chapter 5

(A.REI.6 DOK 2) 3 points

1. Solve the system of linear equations using the substitution method. Write

your answer as an ordered pair.

$$\begin{cases} x = -4 - 2y \\ 3x - 4y = 18 \end{cases}$$

-10-64-44 = 18 -18-19 = 18 x = 3 (-3)
