Superintendent Sean Dusek said, “In an effort to improve our school district, we need a good plan to guide that effort. As a stakeholder in our community, you have a unique perspective that will help in the development of our new strategic plan. Your opinion will help develop areas the school district should focus on and guide which goals we should set. Thank you for taking the time to complete this survey as we chart the direction of our schools for the next several years.”

Survey results will be essential in the process of refreshing and developing our long-term KPBSD strategic plan. A synthesis of the responses will be shared with the Board of Education, and available online. Thank you for making time to complete this valuable survey. Your feedback is important.
