

2017 Legislative Priorities

WE NEED A FISCAL PLAN!

1. **Provide sustained, reliable and adequate educational funding for Alaska's students** : KPBSD is working with the Legislature to find the right solutions for solving today's fiscal crisis.
2. **Control health care costs to school districts** : KPBSD will work with the Legislature to explore all options to control the increase of health care costs to all districts.
3. **Develop an efficient and effective educational accountability system** : KPBSD will work closely with DEED to redefine the state accountability system. We believe that local control should be honored in this process and that any state-wide assessments should provide timely and relevant information to positively impact instruction.
