Introduction

The Kenai Peninsula Borough Board of Education is responsible for providing an adequate educational environment for the students of the Kenai Peninsula Borough School District. To fulfill this obligation, the Board regularly reviews the District's long-range plan. On an annual basis, the School Board adopts a six year enrollment projection that addresses the anticipated levels of student enrollment and shifts in enrollment.

Building administrators and information from other sources (like the Child Find and Head Start programs) help determine the projected number of incoming kindergartners at each school. Once estimates have been made for the incoming kindergarten class, the other peer groups are rolled forward to the next grade. Administration also takes into consideration historical trends, economic variables and other available information in the projection.

This narrative is divided into two sections:

- School Facilities and Educational Structure
- Population Growth and Projections for FY06 through FY11

Charts and data providing detailed membership projections, graphs of demographic facts related to the student population and other information are included in each section. Birth data has been collected from the State of Alaska Department of Public Health, Vital Statistics Section and additional census data has been collected from the 2000 Federal Census.

The process used to project the FY06 enrollment is based on a straight-line projection as of October 22, 2004. The steps involved were:

1. Grades at all school sites were moved ahead one grade level (except charter schools and alternative schools).
2. Charter school enrollment projections are in concert with the contractual agreement between the School District and the charter school.
3. AR 6183 (c) notes the enrollment for Homer Flex, Kenai Alternative, Kenai Youth Facility and Spring Creek locations.
4. Kindergarten enrollment was based on the average of actual enrollment, including pre-school students, for FY04 and FY05 and administrator recommendations.
5. Sites affected by feeder schools were adjusted appropriately.

The District was required to submit the FY06 enrollment projection to the Department of Education and Early Development by November 5, 2004.

School Facilities and Educational Structure

The Kenai Peninsula Borough School District operates 44 facilities, housing 9,534 students (FY05 OASIS school enrollment) and 1,050 FTE staff.

There are a variety of configurations, depending on community location and population. Schools are divided into four categories for the certified staffing formula, with further divisions for the support staffing formula. The four categories specified by the certified staffing formula are:

1. High School/Middle School with population greater than 100:

Homer High	Seward High
Homer Middle	Seward Middle
Kenai Central High	Skyview High
Kenai Middle	Soldotna High
Nikiski Middle/Senior High	Soldotna Middle

2. Elementary Schools K – 6 with population greater than 200:

K-Beach	Sears
Mountain View	Seward
Nikiski North Star*	Soldotna
Paul Banks	West Homer
Redoubt	

3. Small Schools with population less than 200:

Chapman	Ninilchik
Cooper Landing	Port Graham
Hope	Razdolna
Kachemak Selo	Sterling
McNeil Canyon	Susan B. English
Moose Pass	Tebughna
Nanwalek	Tustumena
Nikolaevsk	Voznesenka

4. Other Programs:

Connections	Kenai Youth Facility
Homer Flex High	Spring Creek
Kenai Alternative High	

*North Star and Nikiski Elementary Schools have been consolidated into Nikiski North Star Elementary starting with the FY05 school year.

Special Education services are offered in all elementary and secondary schools in the District.

There are four charter schools in the district: Aurora Borealis Charter School is organized K-8, Fireweed Academy Charter School is organized 3-7, Kaleidoscope Charter School is organized 1-3 and Montessori Charter School is organized by age, but lists enrollment in grades K-6. Charter schools are not included in the staffing formulas because they do not follow the formulas.

Homer Flex and Kenai Alternative are schools that offer alternative programs within their communities for completion of high school. Kenai Youth Facility and Spring Creek are high school programs in secure facilities operated in conjunction with the Department of Corrections. Spring Creek is the first high school program in the United States located in a maximum security prison.

Elementary schools feed into middle schools and middle schools feed into high schools. The following listing shows the elementary schools that are located within each middle school attendance area:

The State Board of Education & Early Development adopted a regulation in 2001 that required the Department of Education & Early Development to assign no later than August 31, 2002, an individual student identification number for each student in the state. To accomplish this, the department has implemented a high security, password protected, web-based system that assigns these numbers. School districts will use this number when they report electronic student information to the department including test scores.

The number will be unique to each student and will not be a Social Security number. The number will enable the department to better analyze student information and make informed policy decisions. Additionally, the number will allow for more accurate reports of school and student performance to the governor, legislature and public.

The student identification number is for department use only and becomes part of a student's school record. The number does not change if a student moves from one Alaska district to another. Beyond its use by the department for data analysis purposes, the student identification number has no other purpose or significance.

What is OASIS?

On-line **A**laska **S**chool **I**nformation **S**ystem is operated by the Office of Assessments and Student Information in the Division of Teaching and Learning Support. The responsibilities of this office include the collection, analysis and publication of student and education information.

- This information was gathered from the State of Alaska, Department of Education & Early Development website

All school districts in Alaska participate in the so-called "Twenty Day Count" beginning approximately October 1 every year and ending on the fourth Friday of October. Each student is counted at the school where he or she is enrolled and the numbers are forwarded to the state for verification. Through the use of the unique student identification numbers, districts are able to determine which students are "theirs" and which students have transferred to other districts or out of state. Once the counts are verified for actual students, the amount of time they are enrolled in school (full-time, part-time) is calculated by grade at each school in each district. Since the calculations include part-time students, they rarely add up to whole numbers and comparison of OASIS numbers with enrollment projections is problematic. For that reason, the OASIS calculations are reported separately with a comparison to current enrollment figures.

FY04 is the first year that OASIS numbers are available broken down by grade at each school. Previously, they were only available as a school total.
