Area of Focus: Rigor	Record discussion notes here	Select a current ranking for your school in this area
<b>Rigor Goal:</b> All students will achieve high levels of academic rigor. <b>Key Discussion Questions:</b> - In what ways do our instructional strategies create rigor in the classroom? - How well does our metrics measure student performance? - Is student growth and success determined through multiple measures of learning? - What steps might we take to increase the rigor of our classrooms?	Students need assistance building online confidence interacting with digital academic programs. With increased confidence, students should be more successful with non-digital content. With traditional media, students will develop self-checking abilities.	Developing
Area of Focus: Relevance	Record discussion notes here	Select a current ranking for your school in this area
<b>Relevance Goal:</b> Experience a personalized learning system. <b>Key Discussion Questions:</b> - In what ways do we create a flexible instructional model that meets the needs and interests of each learner? In what ways might we improve? - How do we help our students to develop healthy lifestyles and make healthy choices? - How can our school better engage families and leverage resources beyond the classroom?	With multi-graded classrooms, instruction is flexible in that students are not relegated to a specific grade level. Students have the opportunity to access learning at the level of instruction that is appropriate. In Daily 5 activities, students choose books based on their interests and reading level. Frequent activities that "teach" choosing healthy choices about stress, alcohol/drugs, anger management, cooperation, empathy and family crises.	Advancing
Area of Focus: Responsive	Record discussion notes here	Select a current ranking for your school in this area
<b>Responsive Goal:</b> Be immersed in a high quality instructional environment. <b>Key Discussion Questions:</b> - In what ways does our school and staff prioritize strong, positive relationships with students to meet their social and emotional needs? - What instructional strategies are used by our staff to target student needs? How can we support our staff to strengthen their instructional practice? - Does our school foster a culture of innovation? What steps might we take to better support such a culture?	It is clear to us that the Statewide assessments are not relevant to our ELL students. It is critical that we identify methods that truly reflect our students' knowledge and growth.	Developing
