The committee reviewed the draft of the curriculum. We reviewed materials to be used for core programming. Material review rubric was used.

The Committee recommends:

The Great Body Shop for grades K-8. It is still to be determined which level in sixth grade will be used – Level 1 or grade 6 programming. High School will recommend using Pearson Health or The KPBSD Health Moodle. In addition, there are several supplemental programs that can support our curricular needs. We will provide a list of programs and support providers and we encourage schools reach out to their community resources to assist with the implementation of a comprehensive health curriculum.
